

technoprofil®
TP Blau GmbH

What WE can do for YOU

Technoprofil **TP Blau GmbH** provides you with products for sealing technology, vibration damping and sound insulation. This includes all types of profiles, rubber molded and rubber-metal elements.

Our strengths include vehicle windows and cabin doors. We also supply the necessary accessories such as tools, sealant, adhesive, etc.

Of course, we support you with our team in Wuppertal as well as our sales force at your location from the idea to the production stage. To ensure perfect delivery and processing, we find clever solutions.
