YOUR PARTNER FOR ENVIRONMENTAL PROTECTION

SHREDDING & GRINDING

High speed grinding

Our high-speed forward shredders and fine grinders take everything as it comes and reduce materials perfectly for the production of openly split and fibrous material.

uni-recycling
YOUR PARTNER FOR ENVIRONMENTAL PROTECTION

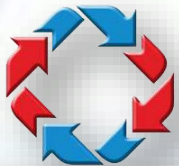

SHREDDING & GRINDING

Slow speed shredding

We ensure by our equipment that inappropriate material stays out of the way while producing high quality bulk material during the shredding process

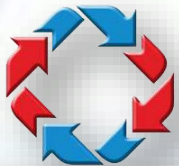

uni-recycling
YOUR PARTNER FOR ENVIRONMENTAL PROTECTION

SHREDDING & GRINDING CHIPPING

With our equipment we may turn any type of wood into high quality evenly sized wood chips in a few seconds

uni-recycling

YOUR PARTNER FOR ENVIRONMENTAL PROTECTION

SEPARATING

Our separation solutions methods (sifters, water, pressure) produce up to four fractions of material in a single work process.

MIXING & TURNING

SPLITTEN

We will show you everything that there is, and also things that do not yet exist - in 3D
