

### GRAFIC MOTOPOMPA

| TIP MOTOPOMPA | PUTERE MOTOR | URATII POMP. | GREUTATE | NO | H <sub>m</sub> | CAPACITATE |
|---------------|--------------|--------------|----------|----|----------------|------------|
| DWP 390 H (S) | 13 CP        | 3600         | 75       |    | mSS            | Q(m/h)     |
|               |              |              |          | 1  | 65.00          | 10.00      |
|               |              |              |          | 2  | 53.00          | 25.00      |
|               |              |              |          | 3  | 42.00          | 35.00      |
|               |              |              |          | 4  | 35.00          | 40.00      |
|               |              |              |          | 5  | 20.00          | 50.00      |

| Diametru intrare | Diametru iesire |
|------------------|-----------------|
| 75 mm / 3'       | 75 mm / 3'      |

### Specificatii motor GX 390 Honda

|                               | CARACTERISTICI                                     |
|-------------------------------|--|
| Tip                           | Motor 4 timpi, OHV, pe benzina cu arbore orizontal |
| Sistem de racire              | Cu aer   |
| Cilindrii                     | 1 cilindru inclinat la 25°                         |
| Alezaj X Cursa                | 88 x 64 mm   |
| Cilindree                     | 389 cm <sup>3</sup>                                |
| Raport de compresie           | 8.0 : 1  |
| Puterea maxima neta           | 9.69 kW (13 CP) / 3600 rpm                         |
| Moment maxim                  | 25.1 Nm / 2.56 kgm / 2500 rpm                      |
| Sensul de rotire a arborelui  | Invers acelor de ceasornic                         |
| Sistem de aprindere           | Electronic, fara ruptor                            |
| Sistem de pornire             | Manual   |
| Tip carburator                | Orizontal cu plutitor                              |
| Tipul filtrului de aer        | Din burete   |
| Sistem ungere                 | Barbotaj   |
| Capacitatea barii de ulei     | 1.1 l  |
| Capacitate rezervor carburant | 6.1 l  |
| Consum maxim                  | 2.2 l/h - 3600 rpm                                 |
| <b>DIMENSIUNI</b>             |  |
| Lungime                       | 405 mm   |
| Latime                        | 450 mm   |
| Inaltime                      | 443 mm   |
| Masa gol                      | 31 kg  |
