# DOSING PUMP
KOMPACT SERIES – Solenoid Dosing Pump

Technical characteristics

- Flow rates:
  - 5 l/h at 8 bar
  - 3 l/h at 10 bar
- Power supply:
  - 240 Vac 50/60 Hz
  - 100÷240 Vac 50/60 Hz
  - 24 Vac/Vdc
- Stroke rate: 160 strokes/minute
- Pump head:
  - PVDF-T
- Diaphragm: PTFE
- External Enclosure: PP protection degree IP65
- Installation kit: Included

Seko Kompact Series is a simple solenoid dosing pump, operating with a micro-processor to manage the dosing. Its external enclosure has an IP55, which guarantees a protection versus splashing water and aggressive environments.

Kompact Analog version has a LED, which shows the state of the operation, according the dosing regulation, constant **C** or proportional **P**:

Constant

- Steady green LED switches off with every stroke (pump running)
- Flashing green LED when the potentiometer is to 0
- Steady red LED switches on with the low level alarm

Proportional

- Steady orange LED switches off with every stroke (pump running)
- Flashing orange LED when the potentiometer is to 0

Kompact Digital version is programmable via keyboard and 2 line x 8 digits backlighted display.

The pump head has a manual priming valve, the flow rate is manually or automatically (by signal input) adjustable from 0 (pump stop) to 100% of the max flow rate moreover it is equipped with the low level alarm to stop or not the pump and includes the installation kit as well.

Kompact pump can be fixed on wall by fixing bracket provide with the pump or top of drums by the optional foot fixing bracket.

Field 7	**market**
Field 8	**optional**
Field 9	**customizations**

Field 1	model

AMS	Analog - Constant flow rate, manually adjustable
AML	Analog - Constant flow rate, manually adjustable, two frequency range 0÷20% (P position), 0÷100% (C position) of max flow rate, level control input
AMM	Analog - Constant flow rate (manually adjustable) and proportional flow rate according to an external analog (4-20 mA) signal, level control input
AMC	Analog - Constant flow rate (manually adjustable) and proportional flow rate according to an external digital (water meter) signal, Division mode 4:1, level control input
DPT	Digital - Constant flow rate manually adjustable, with proportional flow rate according to an external analog (0/4-20 mA or 20-4/0 mA) or digital signal (water meter, hall sensor or voltage signal); Timed dosing with a weekly programmable timer; Dosage in ppm; Dosage batch; Statistics; Password;Input ON-OFF (remote switch).
DRP	Digital - Constant flow rate manually adjustable, with proportional flow rate according the measured pH or Redox value. PT100 probe input (thermal compensation). Input On-Off (remote control)
