# FOLDABLE RAMP

# “ FOLDABLE RAMP

**Extremely easy to use ramps**

**Don't need to carry!**

Mobile transport and easy foldable structure on wheels

**Portable**

**Wheelchair Ramps**

Easy to use, Foldable and Lightweight

**Minimum Storage Area**

Folded depth dimension is only 15 cm!  
Smaller than a suitcase.

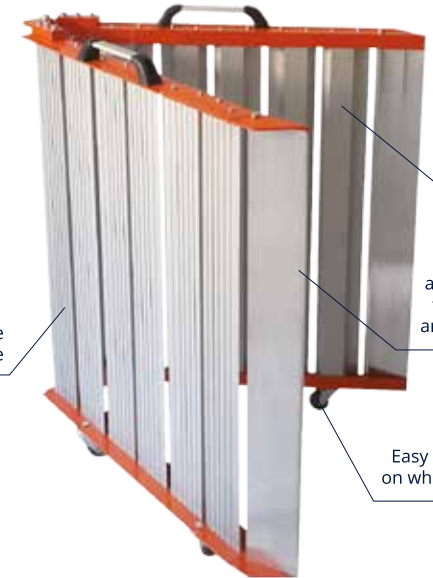

FOLDABLE RAMP

Only 15 cm depth when folded

Move on wheels  
Don't carry!

Antislip ramp surface for safety use

User safety with closed profile design

Angled ramp access module for safety and antislip on step

Easy fold on wheels

## FOLDABLE RAMPS TECHNICAL DETAILS

- Mobile Transportation : Extremely easy to use with wheels; just fold and move on wheels.
- Portable and foldable structure, easy to use and ready to use in seconds!
- Practical Foldable Design: Easy foldable and minimum storage area, only 15 cm depth.
- Safety Use: 6cm height on ramp side borders for safety wheelchair use
- Any ramp longer than 240 cm includes antislip height adjustable support feet.
- 6060 Aircraft Aluminium Material: Strong and quality aluminium structure
- Safety Design: Antislip ramp surface and hole design for safety use every weather conditions

### Ramp Dimensions:

**Width:** 70 cm/80 cm/90cm

**Length:** from 100 cm to 300 cm

**Weight:** 7 kg/m

**Capacity:** 350 kg

## Ramps for Accessibility

Foldable Ramps offer minimum storage area; foldable, portable and mobile use functions, ease of use and safety access for wheelchair users

ROLL  
UP  
**RAMP**

# ““ ROLL UP RAMP

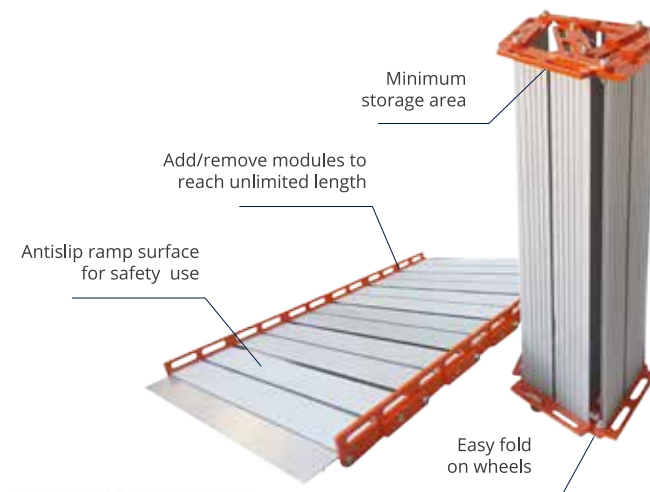

Roll Up Ramp has a new unique function from now on. Mobile transport and easy foldable structure on 'wheels'.

**Just fold and move on wheels.**  
Don't need to carry!

**Unlimited Length**  
Modules can be added/removed by user

ROLL UP RAMP

## Ramps for Accessibility

Roll Up Ramps, don't need installation, ideal solution for historical places with portable use. Unlimited length is the most important advantage for users, add/remove modules and reach any length you need.

## ROLL UP RAMP TECHNICAL DETAILS

- Ready to use in seconds; foldable and mobile transport on wheels.
- Mobile Transportation : Extremely easy to use with wheels; Portable and Mobile!
- Portable and foldable structure, easy to use and ready to use in seconds!
- Unlimited ramp length; add / remove ramp modules to reach unlimited ramp length.
- Practical Foldable Design: Easy Foldable and minimum storage
- Safety Use: 6cm height on ramp side borders for safety wheelchair use
- Aircraft Aluminium Material: Strong and quality aluminium structure
- Safety Design: Antislip ramp surface and hole design for safety use every weather conditions

**Standard Single Ramp Width :**  
70cm - 80cm - 90cm - 100cm  
**Twin Ramp Width :** 25cm-30cm-35cm  
**Length :** Unlimited  
**Modular add/remove ramp modules to reach unlimited length.**  
**Any ramp longer than 240cm have H type antislip support feet**  
**Load capacity is 350 kg**  
**Weight of ramp : 10 kg/m**  
**6060 aircraft aluminium material**

PORTABLE  
**PLATFORM**

# “ PORTABLE PLATFORM

Unique solution for unsuitable places to use ramp like shops, bank branches which have narrow pavements to entrance.

Just move on wheels and unfold; It's ready to use in seconds!

PORTABLE PLATFORM

Dimensions	Platform	Platform Ramp
Width	90 cm/100 cm	90 cm/100 cm
Length	90 cm/100 cm	180 cm/200 cm
Weight	15 kg/17 kg	27 kg/28 kg
Height	12-18 cm/18-35 cm/35-51 cm	
Capacity	350 kg	

## Platforms for Accessibility

Foldable Platforms offer minimum storage area, foldable, portable and mobile use functions ease of use and safety access for wheelchair users

## PORTABLE PLATFORM TECHNICAL DETAILS

- Portable and foldable structure, easy to use and ready to use in seconds!
- Move on wheels and do not carry!
- Unfold the platform and adjust the height of platform by milimetric height adjustable antislip support feet.
- 3 sides of platform can be used for entrance.
- Practical Foldable Design: Easy Foldable and minimum storage area, only 17cm depth.
- Safety Use: 6cm height on ramp side borders for safety wheelchair use
- 6060 Aircraft Aluminium Material: Strong and quality aluminium structure
- Safety Design: Antislip ramp surface and hole design for safety use every weather conditions

# VAN RAMPS

# “ VAN RAMPS

Extremely easy to fold in/out of vehicles with less effort. Easy to fold in/out of van with 2 pcs gas springs and lightweight aluminium structure.

PORTABLE VAN RAMPS

## RAMP DIMENSIONS

Total Width	70 cm-80 cm-90 cm-100 cm
Length	160 m - 240 m
Load capacity	350 kg
Weight of ramp	17 kg 6060 aircraft aluminium material

## VAN RAMPS DETAILS

- **Practical Foldable Design:** Easy Foldable and minimum storage area ( only 14 cm ramp width; 20 cm total width on vehicle )
- **Safety Use:** 6 cm height on ramp side borders for safety wheelchair use
- 6060 Aircraft Aluminium Material: Strong and quality aluminium structure
- **Safety Design:** Antislip ramp surface and hole design for safety use every weather conditions
- Quick release detachable Van Ramp installation kit.

# “ TWIN RAMPS

Lightweight and foldable twin ramps. 6060 aluminium structure and high loading capacity for vehicle access.

TWIN RAMPS

## PORTABLE TWIN RAMPS TECHNICAL DETAILS

- Portable and foldable structure, easy to use and ready to use in seconds!
- **Practical Foldable Design:** Easy foldable and minimum storage area, only 15 cm depth.
- **Safety Use:** 6 cm height on ramp side borders for safety wheelchair use
- **6060 Aircraft Aluminium Material:** Strong and quality aluminium structure
- **Safety Design:** Antislip ramp surface and hole design for safety use every weather conditions

Total Width	(Twin) 25 cm-30 cm-35 cm
Length	Form 100 cm to 300 cm
Load capacity	min 350 kg
Weight of ramp	3 kg/m (twin_1 pc) 6060 aircraft aluminium material

### Ramps for Accessibility

Foldable Ramps have minimum storage area, foldable and portable functions offer easy to use and safety access for wheelchair users
