Get the Best
from your Printer

WHY INVEST IN A QUALITY DESKTOP CARD PRINTER AND THEN COMPROMISE ON THE PLASTIC CARDS YOU USE?

Poor quality cards often have uneven surfaces and burrs that reduce print quality and cause print head damage.

Use the superior Plus-Card™ brand of cards to ensure you get the best from your printer at a price you can easily afford.

Plus-Card™ is specially manufactured to enhance image quality with strong colours and detailed, readable bar codes and text. Manufactured from PVC and Composite PVC, Plus-Cards are not only compliant with ISO standards, but are dust and static free and have

smooth edges to give you **better print quality every time.**

But it's not just the card manufacture that's important, but the packaging also. Issues of dust and card contamination are a thing of the past with Plus-Card™. These cards are shrink wrapped per 100 and inserted into white wax lined 500 card capacity trays with lids for continued protection.

Plus-Card™ is available in:

- Plan white 30 mil CR80 cards
- Plan white 20 mil CR80 cards
- Plan white 10 mil CR80 cards
- Over 15 CR80 coloured cards including black, metallic silver, gold
- Available with or without magnetic stripe/signature panel
- Key tag cards
- Adhesive cards (paper and Mylar backed)

The latest exciting addition to the Plus-Card range is Plus-Card Bio™ which completely biodegrades within 1-5 years after constant exposure to a fertile environment where micro-organisms are present; these include compost, landfill, rubbish tips, the ground, lakes, river and the ocean. All that is left behind is matter that has no toxic effect.

Plus-Card Bio™ performs exactly like the current PVC cards that are currently in use. Under normal every day usage the cards maintain their integrity and can get wet, be stored as usual, off-set, litho and silk screen printed, embossed and without breaking down.

Plus-Card Bio™ is available in:

- White 30mil CR80 cards
- White 30mil CR80 with Lo-Co Magnetic Stripe
- White 30mil CR80 with Hi-Co Magnetic Stripe

USE PLUS-CARD™ FOR ALL YOUR
DESKTOP PLASTIC CARD PRINTING:
QUALITY PRINT, QUALITY PRICES
