- Comprehensive care for all lacquered surfaces
- Easy to apply
- Dries quickly
- Additional protection of the surface
- Also suitable for laminat and PVC-floors
- Certified by IBR

Product info

Container: 1 and 2,5 litre
Consumption: 60 m²/litre

Application area

Lacquer Care may be used for all lacquered surfaces. By using Lacquer Care an additional protection layer is applied. This helps protecting the lacquer and extend the lifetime of the floor.

Lacquer Care is available in mat and high gloss.

Application

Lacquer Care is applied to the surface which has been cleaned with Wood Cleaner undiluted with a glint-free cotton cloth.

Maintaining and cleaning

Maintenance cleaning with WOCA Lacquer Soap. Repairing with WOCA Lacquer Care.

How to do...

- WOCA Lacquer Care:
regular maintenance of lacquered surfaces

1

2

3

4

Tools

Lint-free cotton cloth or mop.

Clean tools with water and soap.

Lacquer Care strengthens the lacquer, as it protects against wear and scratches and hereby prolongs the lifetime of the lacquered surface. Lacquer Care does not build up a thick layer on the floor surface as the old layer is renewed with the next application.

1 Basic cleaning

Important! Mix Wood Cleaner with water in the ratio 1:10. Wash the floor thoroughly until the surface is completely clean. The floor must be absolutely dry before application of Lacquer Care.

2 Application

Pour the Lacquer care into a bucket.

3 Dip the cloth into the Lacquer Care and wring it hard.

4 Apply a thin coat of the lacquer care. Continue the application. Do not continue application of Lacquer Care when the floor has started to dry. Leave the surface to dry for approx. 30 minutes.

Cleaning

The regular cleaning of lacquered surfaces may be done with Lacquer Soap.
