Valspar

The Valspar corporation is one of the largest global coatings manufacturers in the world, providing coatings and coating intermediates to a wide variety of customers. Since 1806, Valspar has been dedicated to bringing customers the latest innovations, the finest quality, and the best customer service in the coatings industry. Our head office is located in Minneapolis in the United States. We have over 80 production sites in 25 countries and 9,500 employees. Valspar is in a truly unique position to supply customers with the coating solutions they need.

Valspar coatings are used by many of the top companies in the world.

General Industry

Our General Industry division is a leading supplier to original equipment manufacturer (OEM) clients throughout the world. Some of the most well-known names in heavy duty equipment manufacturing rely on Valspar's quality and expertise.

valspar

Light Industry

Our light industrial mixing system, called Valspar Industrial Mix, is for small OEMs and the aftermarket.

Valspar combines the power, distribution network and knowledge of a worldwide brand with the speed, service and support of a local distributor. Valspar Industrial Mix provides the perfect coating solution for a wide range of applications.

Valspar Industrial Mix offers

valspar

Wide range of colors

Our Color Retrieval System gives you access to a wide range of colors from the likes of British Standard, RAL, NCS, Pantone and AFNOR, as well as from oil companies, agricultural firms and truck manufacturers. Our Rainbow Color Case, which contains over 2,450 color samples, will help you find the color you need.

Valspar Industrial Mix; no time wasted on color.

Durability and protection

Valspar's expertise in the industrial sector as a global supplier to leading original equipment manufacturers (OEM) guarantees the quality of our products. Its durability and protection properties are outstanding, with tests showing that our PU Topcoat DTM (IME.TB510) outperforms its European equivalents in such areas as chip resistance, salt spray resistance, accelerated weathering, dry adhesion and gloss retention.

Valspar Industrial Mix; reliable for years and years.

Fast-cure systems

To meet the productivity demands of leading OEMs, Valspar has introduced special curing technology over the years. This kind of technology has been integrated into the Valspar Industrial Mix product range. In fact, the entire product range aims to reduce the production cycle by offering full Direct-to-Metal (DTM), wet-on-wet and accelerated curing systems, resulting in time and cost savings.

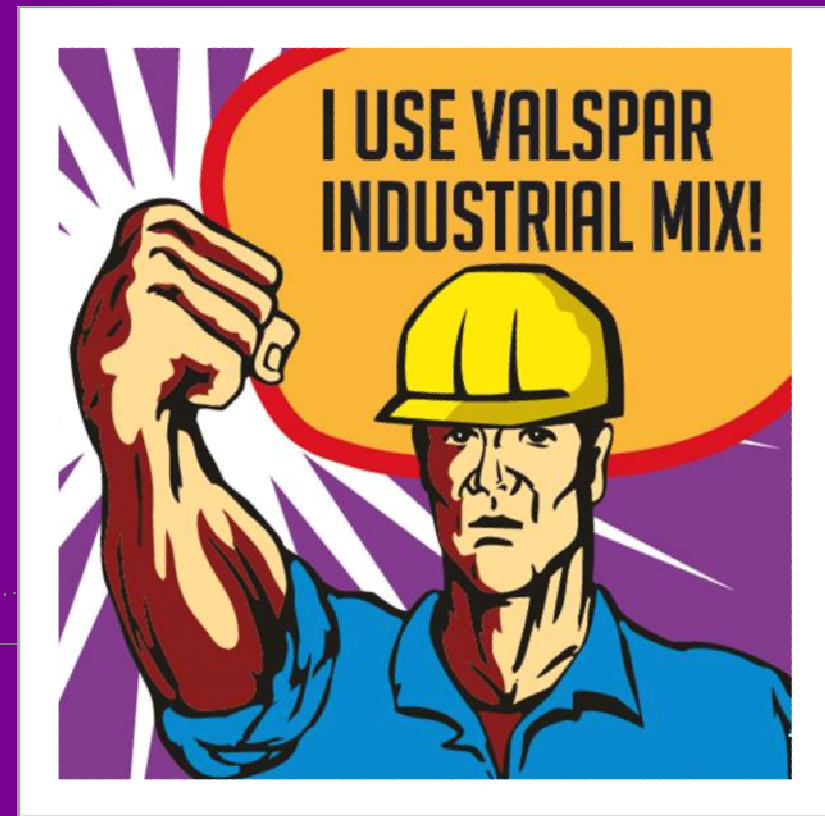

Valspar Industrial Mix: a smart way of working.

Heavy duty performance

The Valspar Industrial Mix product line is made to perform. Proven technology from a high standard manufacturer. The product line will be rolled out globally in due course, so no matter where the work is done, it will be available on your doorstep through a network of dealers, distributors and subsidiaries.

Valspar Industrial Mix; simply deliver.

Color Toner – Binder System

5 liter Topcoat or Primer

add. ~ 1 liter Color Toners

~ 4 liter filled Binder can

Color Pastes

- 15 Solids
- 2 Metallics

Topcoat Binders

- Synthetic (HG)
- Epoxy (HG, SG)
- PU Performance (HG)
- PU DTM (HG, SG, M)
- PU Basic (HG)

DTM Primers & Surfacer

- Synthetic (Grey&Tintable)
- Epoxy (Grey&White)
- Epoxy Zinc Rich (Grey)
- PU (Grey&Tintable)
- 1K Plastic Primer

Activators

- Epoxy, Synthetic & PU

Reducers

- Fast, Medium & Slow

Specialties & Clear Coats

- High Build Additive
- Texture Additive Coarse & Fine
- Anti-Graffiti Clear Coat

Tools

- Mixing Machine
- Rainbow Color Case
- Color Retrieval System
- Mixing Scales
- Measuring Sticks

Reasons to use Valspar Industrial Mix

- Total system that provides, speed of production, product efficiency and cost savings.
- Valspar Technology that is endorsed by many global Original Equipment Manufacturers.
- Latest generation of color pigments, with high color accuracy and colorfastness.
- Extensive range of color formulas backed by an easy to use color retrieval system.
- Color Toner + Binder system offering optimal flexibility and ease of work.
- Efficient, full Direct-to-Metal (DTM), wet-on-wet and quick cure systems.
- Top of the line gloss brilliance and surface appearance.
- Proven corrosion resistance, adhesion and durability.
- Lead and Chromate free product range.
