

BMP™61 Label Printer

Performance that matches your own

Designed with molded rubber bumpers and a vivid colour touch screen with on screen indicators, the rugged and reliable BMP™ 61 Label Printer will be your trusted identification companion of choice, all day, every day, for years to come.

The BMP™61 Label Printer offers great performance that matches your own. It is portable, fast and can handle a lot of identification challenges thanks to its wireless connectivity and a wide range of durable labels to print on.

Data management versatility

The printer features on-board list management. Use the printer's USB-ports to copy large lists of label design from a computer.

The rugged, portable BMP61 is also available in a wifi-enabled version compatible with the LabelMark label creation software and Brady mobile apps. Simply create or send label designs from a smart phone to the printer for extremely fast and easy label creation on the job.

High Performance

With its 33.8mm/sec print speed, predefined label templates, label creation wizards, built-in label cutter and data serialization options, the BMP61 Label Printer is a durable partner in the field.

103788	USB Cable
146221	Magnet for BMP61

Prints in 300dpi multiple qualitative high-performance materials

The rugged, thermal transfer BMP61 Label Printer can print on a wide range of durable die-cut, continuous & custom labels including sleeves, self-laminating labels and raised profile labels up to 48,76mm wide.

Every BMP61 label and ribbon is automatically recognised and auto-calibrated by the printer. The printer's colour touch screen displays which label material is currently installed and how many labels, how much ink and how much battery is left for maximum ease of use.

Customise your labels in personalised shapes or dimensions, in specific colours or layouts or with your logo already present on the label. Simply insert the custom labels in your BMP61 Label Printer's to solve your identification challenges.

PRINTER	
Includes	This printer ships in a hard case holding a USB cable, a quick start guide, a battery pack, an AC Adapter, a CD with driver, a product CD, a hand strap, a roll of PTL-19-423 and an M61-R6010 ribbon.
