

Cable support systems

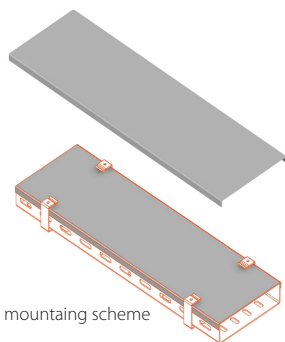

The universal cable support systems are used for construction of cable link in closed production premises for direct mounting on even vertical surfaces. They are perforated metal grates and accessories with standard lengths and sizes. They allow quick construction of cable systems with many angles and derivations.

Type	Size (mm)	Thickness	Metric bolt diameters	Length (mm)	Catalogue number
CT1 CABLE TRAY	40x75	0,7	-	2500	56075725
