

S120

Manual tube bender

Main applications:

Automotive: Brake, Power steering, Injection, Gas, Air Conditioning,
Cooler for power steering, « HVAC » Aeronautic

Main characteristics:

- ✓ 3 numerical axes - YBC
- ✓ Maximum diameter:
 - 20 mm steel
 - (wall thickness 1 mm)
 - $I/V=0.25 \text{ cm}^3$
- ✓ Clockwise or counter-clockwise
- ✓ Total length: 2 meters
- ✓ Multiple bending radius, multiple diameters
- ✓ Numerical visualization on a PC program
- ✓ Hybrid tube bending
- ✓ Conform to CE standard
- ✓ Fast tooling changeover time (3 to 5 min)
- ✓ Interface with measuring equipment available
