

Twintec Battery TTB6652S

Big 60-litre capacity, big 65cm twin brush system, generous floating polyurethane floor nozzle and a choice of 100A/hr or 200 A/hr battery systems to provide substantially extended running times if required.

Here you have a machine that will do serious work, cover big areas for long hours but, having said that, it really is just as easy to use as the smaller machines incorporating all of the practical user based technology that will be found throughout the Twintec range.

The selection of machine size will be based not only on the area to be cleaned but also on the accessibility of that area in terms of obstructions, congestion, awkwardness of access and the time available.

Once again using a motor car analogy, small roads don't like big vehicles, but find yourself with a major highway to be cleaned and the TTB6652S will show you what cleaning is all about.

Model	Brush Motor	Vac Motor	Power	Time	Deck	Speed	Capacity	Weight	Size
665/100S	2 x 24V 400W	24V 400W	2 x 12V (24V) = 100Ahr	2.25Hrs	650mm	120rpm	60L	145Kg	1230 x 1260
665/200S	2 x 24V 400W	24V 400W	4 x 12V (24V) = 200Ahr	3.75Hrs	2 x 330mm	120rpm	60L	211Kg	x 970mm
