

Technical datasheet

TOOL PUSH/PULLER 8/12 TONS

Hydraulic extractors

Simple and safe 3-in-1 tool, enabling the mounting and dismounting of bearings and sleeves by internal or external gripping.

Technical data

| Main features | |
|--|-----------|
| External clamping extraction capacity | 12,000 kg |
| Internal clamping extraction capacity | 8,000 kg |
| Thrust range | 270 mm |
| External clamping extraction range | 260 mm |
| Min distance for internal extractor connection | 130 mm |
| Min separation distance | 44 mm |
| Max separation distance | 280 mm |
| Min distance for external extractor connection | 85 mm |
| Max distance for external extractor connection | 300 mm |
| Min distance for internal extractor connection | 110 mm |
| Max distance for internal extractor connection | 210 mm |
| Weight | 19.5 kg |
