

## Technical datasheet

### Tool SCHP 4 Tons / Self-center hyd pulle

Hydraulic extractors

Self-centering hydraulic puller combined with 2 or 3 arms, enabling easy and safe dismounting of large bearings and press fitted parts such as pulleys and gears.

#### Technical data

Main features	
Capacity	4,000 kg
Max range	190 mm
Weight	9 kg

## Technical datasheet

### Tool SCHP 12 Tons / Self-center hyd pull

Hydraulic extractors

Self-centering hydraulic puller combined with 2 or 3 arms, enabling easy and safe dismounting of large bearings and press fitted parts such as pulleys and gears.

#### Technical data

Main features	
Capacity	12,000 kg
Max range	305 mm
Weight	17 kg

## Technical datasheet

### Tool SCHP 20 Tons / Self-center hyd pull

Hydraulic extractors

Self-centering hydraulic puller combined with 2 or 3 arms, enabling easy and safe dismounting of large bearings and press fitted parts such as pulleys and gears.

#### Technical data

Main features	
Capacity	20,000 kg
Max range	365 mm
Weight	28 kg

## Technical datasheet

### Tool SCHP 30 Tons / Self-center hyd pull

Hydraulic extractors

Self-centering hydraulic puller combined with 2 or 3 arms, enabling easy and safe dismounting of large bearings and press fitted parts such as pulleys and gears.

#### Technical data

Main features	
Capacity	30,000 kg
Max range	465 mm
Weight	39 kg
