

Technical datasheet

Tool SCMP 2/3-120 / Self-center mech pul

Mechanical extractors

Manual self centering extractor combined with 2 or 3 arms for easy and safe dismounting of bearings with small to medium dimensions. Also suitable for the removal of pulleys, gears etc. mounted on a shaft.

Technical data

Main features	
Capacity	2,000 kg
Max range	80 mm
Weight	1.6 kg

Technical datasheet

Tool SCMP 2/3-180 / Self-center mech pul

Mechanical extractors

Manual self centering extractor combined with 2 or 3 arms for easy and safe dismounting of bearings with small to medium dimensions. Also suitable for the removal of pulleys, gears etc. mounted on a shaft.

Technical data

Main features	
Capacity	3,000 kg
Max range	120 mm
Weight	2.3 kg

Technical datasheet

Tool SCMP 2/3-270 / Self-center mech pul

Mechanical extractors

Manual self centering extractor combined with 2 or 3 arms for easy and safe dismounting of bearings with small to medium dimensions. Also suitable for the removal of pulleys, gears etc. mounted on a shaft.

Technical data

Main features	
Capacity	5,000 kg
Max range	160 mm
Weight	4.3 kg
