

MATERIAL SAFETY DATA SHEET

1. IDENTIFICATION OF SUBSTANCE / PREPARATION

Product Name	: Moringa Oleifera Leaves Powder
Trade Name	: Moringa Leaves Powder
Latin Name	: Moringa Oleifera linn.
Company Identification	: JIMIT ENTERPRISE
Emergency Telephone	: +919879419800

2. COMPOSITION / INFORMATION ON INGREDIENTS

INCI Name	: Moringa Leaves Powder
Europe INCI Name	:

3. HAZARDS

Main hazards	: No known health hazards
--------------	---------------------------

4. FIRST AID

Skin	: Immediately drench with water and soap.
Eyes	: Immediately irrigate with water and obtain medical attention if troubles persist.
If ingested	: Remove the product from the mouth, drink a lot of water and obtain medical attention.

5. FIRE FIGHTING

Suitable extinguishing media	: Resistant alcohol foam, water spray, dry powder, CO ₂
------------------------------	--

6. ACCIDENTAL RELEASE

Prevent entry into watercourses and pipe-works. Immediately mop up with suitable absorbent equipment for subsequent correct disposal according to current legislation. Residues may be cleaned with water and detergent.

7. HANDLING AND STORAGE

Keep the bags well closed in a well aired and dry place. Avoid extreme temperatures. Keep away from heat and sources of ignition. Do not smoke.

8. EXPOSURE CONTROL / PERSONAL PROTECTION

Skin Protection : Protective gloves and clothing
Eye Protection : Glasses and masks

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Olive Green Coloured Powder
Colour : Oliver Green to Dark Green Colour
Density at 20°C : NA
Solubility in water : Insoluble
Boiling Point : Cannot be boiled.
Flash Point : NA

10. STABILITY & REACTIVITY

Thermal decomposition :
Distillation without decomposition at normal pressure
No thermal decomposition in case of correct storage and handling.
Dangerous decomposition products :
No dangerous decomposition products if storage and handling conditions are respected.
In case of fire or thermal decomposition, release of carbon monoxide and carbonic anhydride and acroleine.
Expiry date : 2 years

11. TOXICOLOGY

Toxicity : Non toxic if oral rate LD > 20 g/kg

12. ECOLOGICAL INFORMATION

Degradability : Biodegradable

13. DISPOSAL

Recommended method to dispose the product without danger :
Dispose in accordance with the current legislation preferably using incineration.

14. TRANSPORT INFORMATION

Not dangerous for transport.

15. REGULATORY INFORMATION

Not submitted to labeling.

16. OTHER INFORMATION

This form completes the technical notices of usage but does not replace them. The information in it, is based on our actual knowledge relative to the product concerned at the indicated date. It is given in good faith. The attention is drawn to users against the eventual risks encountered when the product is used for other purposes than those for which it is intended. Jimit Enterprise fully disclaims any responsibility or liability for any damage occurred to handler of this product.

In no case can this form exempt the user from knowing and applying all the regulation texts of his activity. The user takes under his own responsibility the precautions associated to the use he makes of the product.
